About This Game

This is a visual novel about 60 minutes in length, telling a story of memories.

"Once" is a story which will recall the experience of many individuals. Regardless of if you're in your springtime of life having full of dreams for the future, or if you're a matured adult who has already stepped into the society and owns a family, you will all somehow spot traces of yourself in "Once". Because that 'one time' not only exists in the game, but it also belongs to each one of us. It's a heartwarming story with moments of joy and regret.

This was once in my memory.
Yet only once.

So far away
Like a glance
Even, left out in the irreversible past...

Nevertheless, I wish, please
Always be able to recall
And engrave it on your mind --
Your
Only once, in this whole life.

Mostly BibleThump. The name of the game is self explanatory, just based off of that you should be able to tell if you will like it or not.

In all honesty I found this game to be very relaxing and even went through the effort of replaying a few levels.

. Unfortunately, felt like a pretty bland, generic roguelike. Nothing new and entertaining. Spawn, adventure, die, repeat. No real hook.. If you like random humour than this game is for you :p. It's a neat idea. But i couldn't really get into it.. so... after playing some time i regret having paid any money for this. ask a friend to try this out before buying.

pro:

- #that game is quite good looking at the beginning
- #sweet characters
- #idea\concept
- #shiny colours

contra:

- #no AI for other pet or however you call this little creatures (so you have to walk the same way twice, literally. except at "challenges" where really both are needed)
- #didn't see much story or background
- #only destination: collect light orbs to save a dying forest - no why, where, what. no sign if it matters at all if you leave orbs behind
- #physics and animations are really poor
- #that short video sequences are kind of cute but the animations are way too slow... okay... little cat (bitey) coming out of some corner...5 seconds later... still standing... turning head ... 5 seconds again... (urf :V)
- #climbing animation of bitey totally unnatural
- #restart at checkpoints after some unexplainable "deaths" (no obvious reason)

after all i will give this a second try where i'll play a longer period of time but for this i likely need some beer and boredom - good concept, but i'd describe that as alpha or beta - much potential not used - a pity

i quit playing after it was getting worse with every minute

. The game seems quite entertaining, but unfortunately it apparently doesn't support changing dominant hand in game, making it basically unplayable for a left handed person.

Anyone who left handed should stay clear of it.

A good platformer. To complete the game, you will need to react quickly. The graphics are beautiful and pleasant.. TMD

Played a long time ago, the game is very good, but TMD you are slag optimization ah, playing less than two hours, 4 times back to the WINDOWS! 2 times is click point scroll, 1 times is click fast, there is an inexplicable. This is the tower defense game please, play to the end of the time, when i got 3 stars, !!!!back to WINDOWS, can tolerate?. Good picross game, only a few instances of having to guess.. I got the pack it says Quest for the lost Eternia Shards Part 1 is already in my steam library but when i go into the game its says i need to get it please fix this i payed 25 euros. A very nice, sad story. Pretty light on gameplay, more of an interactive novel, but I was invested from the start and played through the entire 1.5-ish hours with a lump in my throat.. Just played the first 1.9 hrs of pure bliss 10V10
MUST PLAY

P.D.

I'm completely addicted to this game, you can play it alone or with friends and family. Waiting for new updates :v. Good cars and guns
